SKILLS

FrontEnd: ReactJS, Angular,
HTML5, CSS
BackEnd: Node.js + ExpressJS,
RESTful APIs

EXPERIENCE

In my final exams for Angular and ReactJS courses, I have successfully developed projects that highlight my coding expertise. These projects include the implementation of CRUD operations, authentication, and the assignment of user roles to enhance security and functionality. Additionally, I have implemented server-side applications, integrating RESTful APIs and server-side rendering techniques to create dynamic and responsive user experiences.
